INDIVIDUAL
ART
FOR EVERY
SPACE

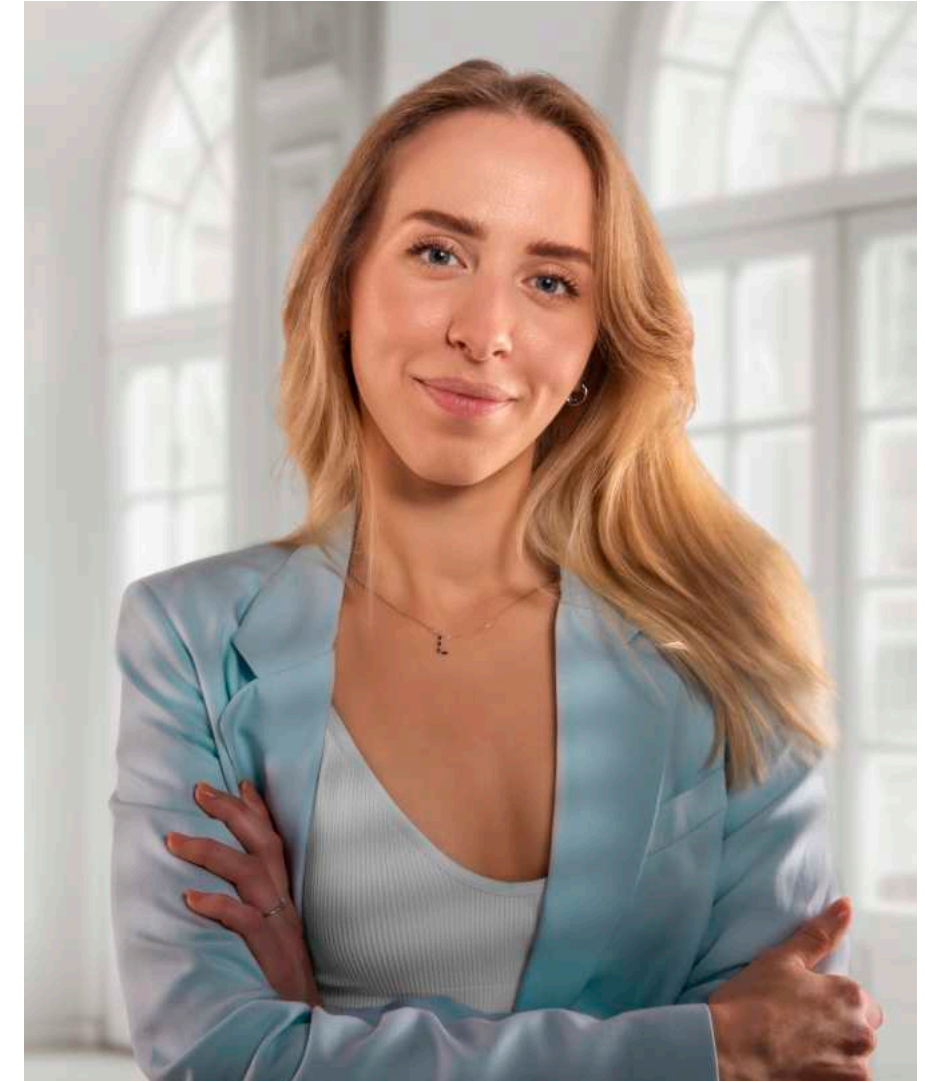

Living the creative way of life!

The young, talented artist sets new standards with her digital artwork and creates a good-mood-atmosphere in every ambience. With fancy motifs of the floral world of unique cities and countries, she uses modern technology to bring an idea to life. A „must have“ for every flower and picture enthusiast. In addition to her floral art "Modern Botanica", Lisa Mittermaier also enjoys creating structural art on canvas. A perfect fit for any modern office or creative home. As a trained media designer, she knows how to present shapes harmoniously and symmetrically, enabling the artwork to support the room's effect without overwhelming it. True art lovers can no longer ignore Limittart's works.

In her career to date, Lisa Mittermaier has acquired in depth knowledge of printing and media technology, which she was able to deepen through the college at the "Graphische" in Vienna. Since January 2022, she has also been working as a graphic designer at MethMedia Verlags GesmbH and, at the same time, is expanding her skills through her studies in the field of media design. In 2023 she illustrated her first children's book and has since published other artistic works.
